GYRATION® ULTRA PROFESSIONAL OPTICAL SUITE

ULTIMATE PC & PRESENTATION REMOTE CONTROL

GYROPOINT POWER™ DELIVERS EFFORTLESS, IN-AIR CURSOR CONTROL

Other presentation controllers offer unacceptable remote cursor control . . . or none at all. Gyration allows you to control your presentation and apply advanced techniques using subtle hand movements without distracting your audience. The magic behind the motion is provided by our patented GyroPoint® technology.

30 METRE RANGE GIVES MOBILITY AND FREEDOM TO ENGAGE YOUR AUDIENCE

Gyration's high-power radio with no line-of-sight limitations allows you to confidently roam around a room and interact with your audience. Four channels and 65,000 unique addresses provide transmission security. One Gyration receiver is all you need to sync up to eight Gyration mice, remote controls and keyboards.

THE ONLY IN-AIR MOUSE IS ALSO THE BEST DESKTOP MOUSE

Gyration's high-power radio transmits data up to 160% faster than other cordless mice, resulting in smoother tracking and faster response. Its optical sensor delivers maintenance-free precision and Gyration's innovative rechargeable battery system means your mouse will always be ready for action.

YOUR PRESENTATION WILL COME ALIVE

Underline and highlight key points on-the-fly. Launch a movie or play a sound with the click of a button. GyroTools delivers over 80 dynamic presentation, Internet and multimedia control tools.

WIRELESS MOBILITY IN A SUPERIOR KEYBOARD

Gyration's wireless keyboard is small and ultralight and is perfect for conference rooms, classrooms and everyday computer use! Its high-power radio and 30 metre range allow you to control your PC from anywhere in the room. Gyration keyboards use high-quality keys for whisper quiet keying and an exceptional feel.

MULTIMEDIA & INTERNET CONTROL IS AT YOUR FINGERTIPS

Check your e-mail, browse your favourites and control your multimedia and sound with the touch of a button. 15 convenient hot keys allow you to control your favourite applications without reaching for your mouse
